

ORDERS EXPIRATION

Effective Date: March 17, 2026

EPIC function will be updated so that orders will not exceed 425 days, roughly 14 months, from the order date starting on the effective date.

Orders placed outside of the 425 days will not be able to be signed.

Order Validation

⚠ You cannot sign these orders because information is missing or requires your attention:

By policy, orders cannot have an expiration more than 425 days in the future from the date of order sign. Adjust the expiration date for X003188 accordingly to sign the order.
By policy, orders cannot have an expiration more than 425 days in the future from the date of order sign. Adjust the expiration date for LAB15 accordingly to sign the order.

The following future or standing orders have expiration dates more than 425 days in the future:
MAMM SCREENING UNILAT LT W CAD [X003188] Expiration Date: 5/12/28
BASIC METABOLIC PANEL [LAB15] Expiration Date: 4/14/28

OK

Explanation:

- This ensures orders comply with CMS rules and are medically necessary.
- Allows providers to enter routine physical / annual orders.
